CREATIVE

INNOVATIVE

TRUSTED

WHO WE ARE ?

Ultimatecal Technologies Pvt. Ltd is a master in all process efficiency and energy conservation for Process Industry with experienced and creative engineers, we have solution for all type of industrial needs.

A sound, responsible management contributes towards making us sustainably successful. Day to day, we want to satisfy the far-reaching requirements of our customers and at the same time, we are also aware of our responsibility vice-versa of our team and suppliers. We keep an eye on our business, and also keep the future in our field of vision. This is the basis for decisions that are responsible, that weigh up all aspects and that are therefore the right decisions. We believe that a successful, sustainable enterprise starts with being a good corporate citizen.

Our corporate policy;- Quality, Customer Focus, Integrity, Respect for persons , Innovation and Continuous Improvement – guide everything we do.

OUR SERVICES

AUTOMATION

Automation or automatic control is the use of various control systems for operating equipment such as machinery, processes in factories, boilers and heat treating ovens and other applications with minimal or reduced human intervention. Some processes have been completely automated. The biggest benefit of automation is that it saves labor; however, it is also used to save energy and materials and to improve quality, accuracy and precision. We can provide total solutions in the area of Factory Instrumentation & Automation process, Machine Automation, VFD (AC/DC Drives) with Panels works.

CALIBRATION

Ultimatecal Technologies Pvt. Ltd (UCT) is a company providing precise, accurate and reliable testing and calibration services. We have technical capabilities and infrastructure to carry out calibration at onsite and in-house for the parameters Electro technical, thermal & mechanical.

INSTRUMENTATION

In Industrial Instrumentation and Automation fields. UCT has highly qualified technical professionals to carry out Calibration, Breakdown services, Annual maintenance or Calibration contracts, Automation projects, Electrical paneling etc. We can help client assess their needs, and implement the right technology from today's industry leading providers of hardware, software, tools, and other enabling technologies.

SALES

We have wide range of Instrumentation and automation products for any type of industry needs. Our team of engineers who have the several years of projects exposure in Petrochemical, Oil and Gas, Food and beverages, Automobile, Electrical, Agriculture, Water Treatment, Rubber and Coir, Refrigeration, Industrial Automation and other numerous applications that industries needs and we can also provide you the best customer service.

Ultimate quality service guaranteed

AUTOMATION

- * Industrial Automation
- * Marine Automation
- * Home Automation
- * Energy Management Systems,,etc

CALIBRATION

ELECTRO TECHNICAL

Multimeters
Meggers
Stopwatches
RPM Indicators,, etc.

THERMAL

Temperature Gauges
Thermometers
Coolers & Freezers,, etc.

MECHANICAL

Pressure

Pressure and Vaccum Gauges
Pressure and DP Transmitters
Digital Pressure Indicators
Safety Valves,, etc.

Dimensional

Vernier Calipers
Weighing Machines
Thickness Gauges
Micrometers,, etc.

INSTRUMENTATION

- * Instrument Layout
- * Installation
- * Erection & Commissioning
- * Programming
- * Shutdown Works
- * Loop Checking
- * Piping and Instrumentation Diagram
- * Cable Glanding & Termination
- * Maintenance Works,, etc.

OUR PRODUCTS

- * PLC VFD & HMI
- * Pressure & Temperature Gauges
- * Temperature Indicator & Controllers
- * Thermometers
- * Data Loggers
- * Torque Wrenches
- * Transmitters
- * Converters
- * RTD & Thermocouple Sensors
- * Laboratory Equipments
- * Shimadzu Weighing balances

Computer installation, Networking & CCTV installation
for Offices, Industries, Hospitals,
Hotels Schools & Colleges
